Wish, βούλομαι, θέλω, ἐθέλω, λῶ.—Wish, εὐχὴ, *f.*: to express a wish, εὐχὴν εὔχεσθαι: how I wish that I, ὡς ὤφελον: how I wish that you, ὡς ὤφελες: that he, ὡς ὤφελε. *The second aorist of* ὀφείλω *is used either alone or with* εἰ, εἴθε, αἴθε, ὡς, to express a wish, *and is varied in number and person in accordance with the subject; as*, ὤφελε ζῆν Βροῦτος, O that Brutus were alive (I wish that Brutus were alive): παθόντων ἃ μήποτ' ὤφελον, when that had befallen them, which I wish had never befallen them: εἰ γὰρ ὤφελον, ἔφη, I wish,—would that I could, said he: ὡς ὤφελες αὐτόθ' ὀλέσθαι, I wish that thou,—O that thou hadst there perished. *Observe that* ὤφελον *is used in wishing what cannot be; as*, ὤφελον θανεῖν, I ought, *i.e.* I owed to have died, *or* I wish I had died: ὤφελον μὴ ζῆν, I wish I were not alive, *but I am alive*:

μὴ γὰρ ὤφελον ἀθάνατος ἔσεσθαι, I wish I were not to be immortal, *but I am to be so. In wishing what may come to pass, the optative mood must be used, either singly, or with εἰ γὰρ, or εἰ alone. Thus, when Hypsipyle takes leave of Jason,* Go, and may the gods conduct thee back in safety with thy companions, bearing the golden fleece for the king, Νείσεο, καί σε Θεοὶ σὺν ἀπήμοσιν αὖτις ἑταίροις Χρύσειον βασιλῆϊ δέρος κομίσειαν ἄγοντα. *The optative with ὡς or πῶς ἂν is used only when one wishes something of which he really hopes for the accomplishment, because he believes it to be possible; but whenever εἴθε or αἴθε is added to the optative, it expresses a wish that something were now which is not, or may be hereafter which most probably will not be; thus Penelope prays,* O venerable goddess Diana, daughter of Jove, I wish that thou would'st now discharge an arrow into my heart, and this moment deprive me of life, Ἄρτεμι, ποτνία θεὰ, θυγάτερ Διὸς, αἴθε μοι ἤδη Ἰὸν ἐνὶ στήθεσσι βαλοῦσ' ἐκ θυμὸν ἕλοιο Αὐτίκα νῦν. Εἴθε *with the infinitive has the same force. It may, however, be not altogether a matter of indifference whether we use an optative with* εἴθε *or* ὤφελον *with the same particle; for as* ὤφελον, *even when used with regard to the present or future, has still the signification of a* past *tense, it cannot but indicate something which has already taken place to prevent the accomplishment of the wish, whereas of itself the* optative *with* εἴθε *indicates only the improbability of such accomplishment.* Ὄφελον *with the ο is frequently varied in person and number, as well as* ὤφελον *with the* ω: I wish that thou wert sitting tearless and uninjured by the ships, αἴθ' ὄφελες παρὰ νηυσὶν ἀδάκρυτος καὶ ἀπήμων ἧσθαι: I wish another man had thy great age, &c., ὡς ὤφελέν τις ἀνδρῶν ἄλλος, ἔχειν: I wish that these gifts had remained with the Pheacians, αἴθ' ὄφελον μεῖναι παρὰ Φαιήκεσσιν.—Wish, εὐχὴ, *f.* ἐπιθυμία, *f.* ἔλδωρ, *n.
